North Star Fund’s Let Us Breathe Fund moves resources to Black-led and multiracial organizations and movements fighting police violence and structural racism in New York City. These grants total $160,000 for 18 organizations, and bring the total grantmaking for this fund to over $860,000 since its inception in 2015. Originally, the fund supported local activism spurred by the death of Eric Garner, with a focus on rapid response actions demanding reforms in policing and criminal justice. But our commitment to organizing for Black liberation is longer term and we want this fund to adapt as the local circumstances shift. The fund continues to invest in long-term organizing to reimagine community safety and build economic sustainability in Black communities for the long haul. Here are the 2019 Let Us Breathe Fund grantees.
